DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 15 are allowed.

The following is an examiner's statement of reasons for allowance:

- The references of the Prior Art of record fail to teach, or suggest any obvious combination of the limitations discussed in the previous Office Action, and further comprising the limitations of **(With respect to claims 1, 6 and 14)** connecting the second exhaust manifold to the first exhaust manifold such that the otherwise unused volume of the second exhaust manifold acts as a resonator to attenuate sound from the first group of active cylinders when the second group of cylinders is deactivated; nor **(With respect to claim 14)** a valve positioned in the second manifold for selectively adjusting the effective length of the second manifold to provide an effective length which is approximately one-fourth the wavelength of sound emanating from the first group of cylinders, thereby forming a quarter-wave tuner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The attached hereto PTO Form 892 lists prior art made of record that the Examiner considered it pertinent to applicant's disclosure.
